TASK 4

The great thing about the cake mix is that pretty much everything you need is going to be in that little box, except perhaps an egg or two.

On the flip side, you, my friend, are in control. This is your chance to upgrade the experience and make the cake you dream of.

- Purchase the cake mix of your choice.

- Follow those instructions to the letter. Make sure your parents watch over what you do. The instructions may tell you to do some things that you may not quite understand.

- Once baked, customize that puppy, and prepare your family for an amazing treat.
