

BUY CLOTHES ON A BUDGET

Throughout your life you are going to have to buy clothes. We all know there are some shoes out there that are just to die for. And a jacket that you would sell your soul for. But here is a reality check: People generally don't buy those kinds of clothes immediately because there are so many other things to buy. So instead, they set a budget and make good decisions.

- Obtain a budget from your parents for clothes.
- Discuss with them the items that you need to purchase with the money.
- Return and get a thumbs up from your parents at all your well thought out decisions and maybe even some money left over.

So, we are going to try to make some good purchasing decisions for some clothes. Two things you need to know before you go:

1. What clothes do I need to buy, i.e. new jeans, two pull-overs, some socks?
2. How much money do I have to work with?

Now the decision making starts. Go to the most expensive store on the fanciest street and maybe you can buy the socks. Go to the Goodwill store and maybe you can have change left in your pockets. Check and compare prices.

Another thing to bear in mind is the quality of the clothes. Some stores are far more affordable, but the clothes soon wear out.

So you need to make good decisions with your budget. Are you ready to earn a Nugget, Cragman?
