TASK 1

Well, your room may not be quite as bad as mine, but there is always room for improvement. I think you are up for the challenge. Your drawers and closet are your space for your stuff. So you are going to take everything out, then neatly put it all back in, the way you like it.

This is your opportunity to arrange things so you can find them easily. You can put your special things in their own prized place. It's chance for you to find a good place for some things that simply have not had a place and have just been kicking around the room getting damaged.

I think this is going to be awesome. What's more, you'll love it when you are done because there is nothing better than having a neat place for your stuff.
