

DETAIL A CAR

One of your more prized possessions is likely to be your car. It can say a lot about a person. People look at a car as an extension of the individual (and it's usually quite telling). People are judged by their cars and their shoes.

EARN THIS NUGGET

Detail two car interiors. If you are lucky, you may even get paid for this. No, you wouldn't ask for money. The satisfaction of a job well done and another Nugget earned is enough for this Trekker, right?

TASK 4

So, it may be alright to be a carefree teen driving a beater full of trash, but chances are, it's not going to carry you through life.

Here are some tips to detailing or thoroughly cleaning your car. So that when someone sits in your car they don't feel they need shots afterwards.

1. Remove mats for cleaning. If they are carpet, vacuum, and use carpet cleaner for any stains. If they are rubber, soapy water will work. However, make sure you get all soapy residue off. Slick mats could be super dangerous especially when the driver gets into the car with wet feet.

2. Scrub seats. Different materials will need different cleaning methods. Leather seats are cleaned very differently than cloth.

3. Canned air is a tremendous thing to use to blast dust out of the console, along with a soft brush. Clean around all of those buttons.

4. Vacuum the car interior.

5. Use a spray cleaner and soft cloth on the hard components of the car, like the dashboard. Armor All is a famous brand for this sort of work.

6. Clean all windows on the inside and mirrors with a glass cleaner.
