

# DUSTING THE HOUSE

I don't know whether you realize this, but it takes a lot of work to keep a house looking good.

One of the things that just has to be done is dusting. Well, for this challenge you are going to pick up the duster and take care of business. I think you're about to put a smile on your family's faces.

Dust the house two separate times.

LEVEL B

PERIOD 7

TASK 1

The first thing is to arm yourself with the tools of the trade. People have different methods of dusting. Some use a damp cloth, some use a cloth and spray, and some may use a special dusting tool. Ask your parents what works best for them and get armed for duty.

Now, if you start dusting the first area that you come to or jump from object to object it is easy to miss things. So I have a few suggestions for you.

1. Start at one end of a room with an object, perhaps it's a bookshelf, dust it thoroughly. You will have to carefully move objects, dust the shelf, dust the object, and then return it to where it was.
2. Work around a room, clockwise or counter-clockwise. It's your choice, going from furniture to furniture, item to item.
3. Once in a while you are going to have to clean off your duster because it is getting covered in dust. It's probably best to do that outside, otherwise you aren't really getting rid of the dust.
4. Keep going until you have dusted every piece of furniture and all objects in the room.

You are going to be awesome at this.
