

HELP GATHER LAUNDRY

There is nothing quite like warm, fresh clothes up against your fur. But, how did they get so clean?

Well, I'm glad you asked. Someone has to go and get all that dirty stuff and it has to get washed and dried so it can come out clean and smelling sooooo good.

FLIP OVER FOR YOUR NEXT CHALLENGE

EARN THIS NUGGET

- Gather laundry from around the house on three occasions.
- Make sure your own dirty laundry is properly placed in where it should go for two whole weeks.

LEVEL A

PERIOD 8

TASK 3

Well, this time, not only will you get clean clothes, but you are going to help.

People have different ways of dealing with dirty laundry. Some people have a laundry basket in every room. Others have a central basket that everyone uses. Some people have really cool chutes that take the dirty clothes straight to the basement. And some people leave their dirty laundry all over the floor...you wouldn't be one of those, would you? That's not very Skill Trekker at all.

1. Have your parents show you how all the laundry is collected in your house.
2. Now your job is going to be to get all that laundry to the laundry room, so it can get nice and clean.
3. You are also going to make a sweep of the house and make sure no dirty clothes get missed.

It's that simple. How cool is that? Clean, great smelling clothes and you are helping to make it happen.
