

# KNOW YOUR PHONE NUMBER

Just about everywhere you look, you'll see numbers. You'll find numbers on houses, on mailboxes, on cars, and on buses.

As you go through life, you'll have numbers that are very important to you. One of those important numbers is your phone number.

## FLIP OVER FOR YOUR NEXT CHALLENGE

### EARN THIS NUGGET

- Learn your complete phone number with area code, be able to recite it, and practice dialing it.
- Talk with your parents or guardian and learn about times when it's a good idea to share your phone number.

LEVEL A

PERIOD 2

TASK 2

A phone number allows you to call home, and if you're ever lost or in an emergency, it can help someone find your parents.

Learning your phone number is important! You also need to be careful about who you give your phone number to. Talk to your parents or guardians to find out who they want you to give your number to.

Don't simply let anyone know it—only give your telephone number to someone you trust.
