TASK 1

So here is an awesome dessert that my mom makes, and it's so easy.

Take a banana and slice it up in a bowl. Smother it with chocolate pudding and then throw it in the refrigerator.

When you are ready to eat it, add some ice cream, vanilla works awesome.

So that's mine, but you make whatever dessert you want. Discuss with your parents, perhaps you have a family favorite dessert. Whatever it is, select a great dessert, and learn to make it.

Everyone should have a fantastic desert they can whip up at a moment's notice
