

RAKING LEAVES

So, fall yard cleanup is upon us, and with autumn comes, of course, the fall of all of those leaves. This year you are going to get to work on raking those leaves, LifeProofer.

FLIP OVER FOR YOUR NEXT CHALLENGE

Under the direction of your parents, rake those leaves so that they can be disposed. Follow your parent's directions carefully so that you can be a great help in the yard this fall.

- First thing you are going to need is a rake...was that too obvious?

- Now hold the rake with two hands, about a shoulder width apart, and rake the leaves towards you into a pile.

- Now just putting them into a pile may not be too helpful. Most people will rake them onto a tarp so that they can drag the pile to a place to dispose of them, or burn them.

And that's all there really is to it. I will warn you, it is a lot of hard work though, but you'll soon have that yard looking totally awesome, I'm sure.
