

SORTING CLOTHES

It sounds crazy now, but I used to think that my clothes magically appeared in my drawers. I thought that was awesome. Perhaps the pixies took care of them, I really didn't know. I just always knew they would be there.

EARN THIS NUGGET

Sort and put laundry away on three separate occasions.

LEVEL E

PERIOD 6

TASK 2

Then I saw my mom hard at work with laundry, and I realized it was all about her dedication and hard work. Well now, my little RockHopper, it's your turn to start pulling your weight.

1. After the wash is done, have the dry laundry delivered to you.

2. Discuss with your parents how they would like the laundry sorted. Some like to sort by person. Others sort by item. There are lots of ways that it can be done.

3. Fold and put away all laundry items, starting with your own clothes. Make sure they are folded and neatly placed in drawers or hung up. And then put away all other items that you can.
