

TIE A DECORATIVE BOW ONTO A PACKAGE

Giving a perfectly wrapped gift is something very special. Nicely wrapped with beautiful paper and a heartwarming tag. But the *crème de la crème* can be that perfect bow on top. And not one of those stick on ones, Cragman. I expect better from you.

EARN THIS NUGGET

Tie a bow on five packages.

LEVEL 1

PERIOD 8

TASK 3

So, let's look at this delicate art that is going to melt the heart of anyone you wrap a gift for from this day forward.

1. Get yourself a piece of flat ribbon with an appropriate width for the package you are wrapping

2. Wrap the ribbon around the box, laying it over the top face and then meeting the two ends at the bottom.

3. Now, here is a tricky part, tie the ribbon as though you were going through the first step of tying your shoes and then take the ribbon ends up the other sides of the box. The ones that don't have any ribbon on them yet.

4. When you get to the top, tie again with the same kind of knot. But this time you'll finish it off exactly like a completed shoelace bow.

5. Trim the ends to the right length and you are ready to impress the world.

I just hope the gift inside can compete with the glorious bow.
